Cruise Club and Groups consist of 4 or more vessels paying for transient dockage for the duration of the stay. We can reserve a maximum 15 spaces for one reservation, however groups reserving space for more than 15 boats, availability is not guaranteed. Adjustments to this number can be made up to one week in advance, however please note that adding additional vessels to this reservation will be pending available space and Marina approval at the time the change request is made. Groups are recommended to start a waiting list when adding additional boats to the number of vessels originally submitted on the reservation form.

Once completed form is received, Marina Office will call Point of Contact to collect credit card number. Note that (1) credit card number is required to guarantee this group reservation. Once attendees arrive, they can each pay for their own dockage.
